

# Certificate of Appreciation

## SUSUMU

**In recognition of your important contribution and dedication to the global fight against the Covid-19 pandemic.**

Pfizer and BioNTech are supplying the COVID-19 vaccine to many countries worldwide. Without your continuous support of providing important components to Controlant's Real Time Data Loggers, we would not have been able to distribute the temperature sensitive vaccine worldwide, and for that we are truly grateful.

With this Certificate of Appreciation, we express our gratitude.
